

SENSOR BASED STREET LIGHT

FIRST TIME IN INDIA

OUTDOOR LIGHT

1. Al-camy Motion Sensor (MS) Street Lights.

Al-camy Motion Sensor (MS) Street Lights are pre programmed in such a way that if no people is in the vicinity of around 10 metres the lights will go automatically 50% at lesser current. For Example If there are movement of people around the street lights the wattage will be 36w and if no movement of people then the wattage will go down to 18w thereby saving 50% power.

2. Al-camy Light Sensor (LS) Street Lights.

Al-camy Light Sensor (LS) Street Lights are preprogrammed such a way that the lights will be automatically on by the time darkness sets in. There are many village panchayats and societies or Residential places where the lights are on till 10-11 am. By Maklites introducing Al-camy LS there is no need for anyone to turn the lights on or off.

3. Al-camy Motion & Light Sensor (MSLS) Street Lights.

Al-camy Light Sensor (MSLS) Street Lights will have both the features together. But the launch of the product will be after 4 months as the testing for the product is now undergoing.

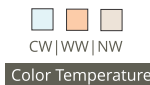

4. Fittings that Breathe:

Maklites has solved the inherent problem of led fixtures with high temperature by Unique Design of Breather which can vent the hot air inside the fixtures.

Breather

Technical Details

All Dimensions are in mm

Product Description	Code	Length	Height	Pipe DIA
24w Al-camy MS Motion sensor	C 125	350	135	35
36w Al-camy MS Motion sensor	C 126	380	142	45
48w Al-camy MS Motion sensor	C 127	390	160	48
24w Al-camy LS Light sensor	C 128	350	135	35
36w Al-camy LS Light sensor	C 129	380	142	45
48w Al-camy LS Light sensor	C 130	390	160	48
24w Al-camy Double Radar Sensor	C 142	350	135	35
36w Al-camy Double Radar Sensor	C 143	380	142	45
48w Al-camy Double Radar Sensor	C 144	390	160	48
